

# MATTHEW WESTENHAVER

Full Stack/Front End Developer

## SUMMARY

I am a Full Stack Developer that primarily develops applications using React.js, Node.js, and Express. I also work with a variety of programming languages and frameworks including HTML, CSS, JavaScript, PHP, Ruby, Rails, and Vue.js. Currently, I am working as a developer for a virtual reality/robotics company called VirtualAPT. I am developing and improving their 360° video platform to drive audience engagement and help design, build, and maintain their client-facing platforms that I developed with React.js and Node.js.

## EXPERIENCE

### FULL STACK DEVELOPER

VirtualAPT | August 2018 - Present | [virtualapt.com](http://virtualapt.com)

Maintain VirtualAPT's website and continued development of their 360° video platform to drive innovation for visualization and engagement. Built client-facing platforms to fit the client's desired specifications for their 360° experiences.

### FRONT END DEVELOPER

Dress With Jess | Feb 2019 - July 2019 | [shopdresswithjess.com](http://shopdresswithjess.com)

Used Shopify to design, develop, and maintain a user-friendly website to fit the specifications for a client who runs an online clothing store.

### FULL STACK DEVELOPER

ShowPads | Mar 2018 - June 2019 | [showpads.com](http://showpads.com)

Led a redesign of the company's website using MERN Stack (MongoDB, Express, React.js, Node.js) development to fit the specifications of the company's founder. Built additional features after deployment and maintained the site and server.

### WEB DEVELOPMENT IMMERSIVE TEACHING ASSISTANT

General Assembly | Nov 2017 - August 2018

Provide support and instruction for students in the development of their web applications and software, and helped them debug their projects using JavaScript, Node.js, React.js, Ruby on Rails, PostgreSQL, MongoDB, etc.
